

Purpose & Care of Retainers

- Wearing your retainer correctly is a very important part of your orthodontic treatment. Failure to do so may allow teeth to move out of position.
- Use retainer as directed by your orthodontist.
- When retainer is not in use always keep it in the box provided.
- Brush retainer regularly with normal toothbrush, cool water and toothpaste.
- If retainer becomes loose or broken please make an appointment to have it attended to.
- You're retainer will be supervised for 12 months from the date it is fitted. Any breakages or replacements will be charged for during or after that period.
- If a fee applies you will be advised of this beforehand.
